SUMMARY

Detail-oriented aspiring Data Analyst with practical experience in data analysis, visualization, and reporting. Proficient in Python, SQL, Excel, Power BI, and Tableau. Skilled in data preprocessing and exploratory data analysis using NumPy, Pandas, and Scikit-learn. Eager to contribute to data-driven decision-making.

SKILLS

Languages & Database:

Python, SQL, MySQL

Technologies:

Machine Learning (Basics), Deep Learning (Fundamentals)

Libraries & Visualization:

NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn

Tools & Platforms:

Excel, Power BI, Tableau, Jupyter Notebook, Google Colab, GitHub

WORK EXPERIENCE

US HR Operations

Wipro HR Services India Pvt. Ltd.

March 2024 – March 2025 | Navi Mumbai

- Processed and validated large employee datasets for 50+ client
- Used SAP to manage records.
- Generated and reviewed reports from documents (email, fax, portal)
- Ensured accurate salary credits by reconciling employee earnings, deductions, and benefits.

Customer Service New Associate

Accenture Solutions Pvt. Ltd.

June 2022 – September 2023 | Navi Mumbai

- Analyzed and processed high-volume client data.
- Collaborated with cross-functional teams.
- Improved team productivity and workflows.
- Maintained accuracy, quality, and timelines.

PROJECTS

Machine Learning Projects:

- **Wine Quality Testing** – Built a model that checks different features of wine (like acidity, sugar, pH) and predicts whether the wine quality is good or not.
- **Rainfall Prediction** – Created a regression model to predict how much rainfall will happen using previous weather data.
- **Gold Price Prediction** – Developed a machine learning model that predicts daily gold prices based on historical trends.
- **Car Price Prediction** – Designed a complete ML pipeline that predicts the selling price of used cars based on features like mileage, brand, age, and engine capacity.

Power BI Dashboards:

- **D-Mart Sales Dashboard** – Sales and revenue analysis.
- **OLA Ride Analytics** – Demand, revenue, and customer behavior insights.
- **Myntra E-Commerce Dashboard** – Customer segments and product trend analysis.

SQL Project:

- **Cab Booking System** – Performed data extraction, complex joins, filtering, and reporting to analyse cab booking operations.

COURSE

**Masters in Data Analytics and Data Science with A.I.
IT Vedant Education Pvt. Ltd.**

May 2025 – March 2026

Coursework: Machine Learning, Python, Power BI, Excel

EDUCATION

Bachelors of Management Studies (Marketing)

6.76 CGPA -2021

University of Mumbai

HSC (12th)

58 % - 2018

Maharashtra State Board
